Our Mission

The Stanislaus Senior Foundation is a charitable organization focused on enhancing the lives of the senior population in Stanislaus County.

We serve our community by raising money to financially support various programs that benefit seniors in our area.

The Stanislaus Senior Foundation is a charitable organization founded in 2008 that focuses on enhancing the lives of the older adult population.

We advocate for vulnerable seniors in our community. Funds raised support emergency assistance that help to promote independence. Over the years, the Foundation has supported local agencies to provide services to older adults that keep them safe in their homes.
